

FOR IMMEDIATE RELEASE

PSP® (PLAYSTATION®PORTABLE) GO AVAILABLE AT AN ATTRACTIVE NEW PRICE OF 16,800 YEN STARTING OCTOBER 26, 2010

Tokyo, October 25, 2010- Sony Computer Entertainment Japan (SCEJ)*1, today announced that it will reduce the recommended retail price of the PSP® (PlayStation®Portable) go, handheld entertainment system (PSP-N1000 series) in Japan to 16,800 yen (including tax) starting October 26, 2010.

As the new evolution of PSP handheld entertainment system, specifically designed to suit the digital lifestyle of consumers who enjoy downloadable content on the go, PSP®go made its debut on November 1, 2009.

Newly adopted 16GB of flash memory*2 instead of the UMD® drive, and a sophisticated form factor featuring an easy sliding display panel, PSP®go has offered users more opportunity to enjoy their favorite entertainment content such as games, videos, music, photos and TV programs recorded by "torneTM", digital terrestrial tuner and application for the PlayStation®3 (PS3®) computer entertainment system.

SCEJ along with third party developers and publishers continues to enhance the content line-up within PlayStation®Store, and more than 590 titles of games, 1,250 titles (4,490 episodes) of movies, 2,200 episodes of comics are available for download as of the end of September, 2010. This broad content offering across all genres includes games, free-demos, PS one® classics for PSP, add-on items for game titles, trailers and comics.

Users can download a digital entertainment content accessing PlayStation®Store directly from PSP®go using the built-in wireless LAN (Wi-Fi) feature or through PS3. Media Go will also enable users to access and download entertainment content on PlayStation®Store via their PCs as well to easily manage PSP content on PCs, including games, videos, photos, and music.

2-2-2-2 PSP® (PLAYSTATION®PORTABLE) GO AVAILABLE AT AN ATTRACTIVE NEW PRICE OF 16,800 YEN STARTING OCTOBER 26,2010

With this price reduction, SCEJ will continue to vigorously expand PlayStation Network's digital content and services and build a stronger software line-up along with various marketing measures, while creating the world of computer entertainment only available on the PlayStation® platforms.
